The steamer City of New York arrived about half-past 1 o'clock on Monday afternoon, having made a very good passage. She discharged the San Francisco pilot at 3:30 on the afternoon of the 19th. It is a question as to the hour she took the Honolulu pilot on board. She brought quite a number of passengers; and several, who intended coming, remaining at the last moment on account of the reports of sickness at Honolulu.

We learn that the Trustees of our Punahu School are preparing to widen Punaliou avenue to sexty feet, and offer for sale some eligible building lots in that section of the city. Dr. Whitney has already negotiated for the purchase of some of the lots. With the many natural attractions of that classic neighborhood, and the new residences late-by built there. Punahou avenue bids fair to out-rival our Nob Hill, and the palatial mansions of Judd street.

Mr. C. Adolphe Low was a passenger by the City of New York. It is to be presumed that he comes and all the control of New York, in connection with business of the new sugar refinery which is now starting in San Francisco. At any rate, we hope he will have a pleasant visit.
Mr. George C. Williams of Kohala Plantation also
returned from quite a long visit at the coast. He
comes with improved health, and we trust, he will
yet spend many pleasant years in our midst. We
also note the arrival of Mr. F. Sinclair and wife of Niihou, and Mrs. J. A. Hopper of this city.

In his remarks at the funeral of Mrs. Chamber lain, Rev. Mr. Frear mentioned one instance of her devotedness to whatever she believed to be a devotedness to whatever she believed to be a worthy object. Vhen the Fort Street Church was built, it was only with strenuous effort that subscriptions enough were secured to put up the frame of the building, and put on the roof. But Mrs. Chamberiain thought that the church should have a spire. So she walked out to Punahou, made arrangements to sell her cows, and with a subscription headed by her name with \$60 pledged for this object, the spire was lifted, to the greation of many who like her had desired to see it, but unlike her had despaired of realizing their wishes.

The Civil Code reads: "Sec. 215. All prisoner sentenced to imprisonment at hard labor shall be constantly employed for the public benefit, on the public works, or otherwise, as the Marshal with the approval of the Minister of the Interior, may think best." "Sec. 216. When such prisoners can not be well employed in the performance of any public work, the Marshal, with the approval of the Minister of the Interior, may let them out to labor for private individuals, upon such terms as he may deam proper." This law has of late been properly construed to preclude letting out prisoners while public work requires their labor. But let there be no favortism. The rule should be to hire out the prisoners reasonably to applicants generally.

Not even among the tradi-tions of the Indian inhabitants of the country, is there a record of a tempest so wild and furious in its aspect, or so disastrous and terrible in its rethere a record of a tempest so wild and rarious in its aspect, or so disastrous and terrible in its results. The morning was unusually mild for this season till mear ten o'clock, when a breeze sprang up from the southeast. It soon became a gale, and at eleven o'clock increased to a storm, sweeping in a general direct course, but exhibiting whirls and eddles. By 12 o'clock the wind had reached a velocity of about fifty miles an hour, with occasion spurts at the extraordinary rate of sixty miles. The scene at this time for the succeeding two hours was terrible. Men hurried hither and thither, eager, uncertain and fearful. Women, with scared faces, peered from the windows of their homes, dreading to remain, yet knowing not where to fly for safety. Little children from schools, which were soon dismissed, ran homeward with frightened haste. Horses snorted in helpiess fear, and even the dogs were affected with the universal terror. The Signal Office reports that the wind increased from an ordinary velocity of four or five miles per hour, to a rate of thirty-nine miles per hour, in less than fifteen minutes. NEW ADVERTISEMENTS CARD TO THE PUBLIC

PEGS TO OFFER HIS SINCERE THANKS
for the rapidly extending patronage that has been
offered him by the inhabitants of these Islands, and
takes this opportunity of informing the public generally
that he has determined, in accordance with the SPIRIT
OF TIMES, to prove to the utmost the Full and Actual
Value of the CASH DOLLAR. For this purpose he
has leased the large premises adjoining his Music Store,
and has filled the same with a Large and Varied

STOCK OF NOVELTIES Of every conceivable kind and description selected from the Eastern Markers with taste and care. Bought at the lowest cash prices, in large quantities, direct from the manufacturers, he now offers each and every article in

For One Dollar! a matter of impossibility for people who have to bought goods here to realize the tremendous are in the value of what they have got and who ameronce in the value of what they have got and what they can sow get for the READY CASH DOLLAR; But the stubborn facts remain that what is now selling in the neighboring stores for \$2.50, can be obtained and selected from this large stock for ONE DOLLAR. The whole secret consisting in the fact—the goods are

Bought for Cash, Sold for Cash,
No Bad Debts, No Losses,
No Bad Debts, No Losses,
No Interest on Money,
And the Motto of the Store is "SMALL PROFITS
AND QUICK RETURNS.
To attempt t describe the varied beauties or excellencies of this stock would be impossible; but for the purposes of ordering, Geo. F. Wells has completed a Cambiogue which he thinks and hopes will prove beneficial alike to Buyer and Seller. One thing he guarantees—

EVERY ARTICLE IS SENT OUT IN PERFECT ORDER Every article is exactly as described in the Catalogue, and will be readily exchanged if not approved of. The Catalogue will be added to by every mall, and as fresh noveities arrive the public will be notified of the fact. We have already been met with the objection that in-dividuals wanting one or two articles cannot get them in

to obviate this difficulty we have devised the following scheme:

Any number of persons desiring ten or more articles shall select from the Catalogne the Goods they require, and send their order, with the Cash, and directions to pack and forward to a directed person. This shall be done, and to the so manued person the goods shall be baxed and packed, with the additional Bonus of ONE EXTRA AITICLE IN EVERY TEN, as selected to repay them for the trouble of delivering each to its respective owner. To provent disappointment in ordering, it will be necessary to mention the articles specially desired, but to add an extra humber to the list, to substitute, should any be out of stock at the time of ordering. Don't fail to send to Geo, F. Wells for Catalogue and Price List.

GEO. F. WELLS' GENERAL MUSIC STORE WALLA WALLA, January 17.—The recent gale did Piano Fortes, Organs, Musical Instruments, &c. derstand that, while he is thus catering to their smaller wants, he has not neglected or forgotten the more important business of MUSIC IN ALL ITS BRANCHES. As is the only importer of the celebrated Weber Plano, Grand, Square and Upright, the purest toned, most elegantly finished, and most brilliant Instruments ever introduced into these islands. These instruments be offers at the following prices: 8475 TO \$1,000. San Francisco prices for the same Plano, \$630 to \$1,300.

Now, the Weber Plano imported from New York to San Francisco costs, freight.

loving Islands, was patented and introduced intely as the ORGUINETTE,

And is constructed on the principle of a Cabinet Organ, and can be operated upon by any one, even a child, atterly unacquainted with maist. There is no limit to either kind or quantity of music. It will play Hymn Tunes, Popular Airs, Quadrilles, Polkas, Waltzas, etc., with a clearness and accuracy which few performers can equal and can be carried under the arm. The ORGUINETTE, with its automatic music sheets, represents both organ and organist, music, musician and music teacher, and is admirably adapted for singing parties, dancing parties, evening entertainments, surprise parties and educational purposes, and is therefore.

The Most Wonderful Mechanical Instrument of the Age.

The music can be changed instantaneously. The sets of Quadrilles and other pieces are complete in quantity, and mathematically correct in time; and as all the changes of figures are printed on the sheet, any one, even a child without ear for music or musical knowledge, can provide the music, do the prompting, and so far take the place of professional musicians as to call forth the lament—"our occupation is gone." Musicians are not every where available, and very few can afford to engure them when they are available. The amountaissally paid them one night will buy our Orgainette, and Music enough for every night in the year, without the unpleasantness and restraint caused by the presence of strangers. The trifling cost of the music, the compact and convenient method of keeping it, and the economy of the whole arrangement, places the Orgainette over five hundred per cent, above any other mechanical musical instrument in the world.

We purpose selling these Wondrous Mechanical Musical Instrument in the world.
